Education

Bachelor of Technology (B.Tech) **2019 – 2023**
Dr. B. R. Ambedkar National Institute of Technology, Jalandhar CGPA: 7.41/10

Professional Experience

Fleetx Technologies Private Limited
Senior Software Development Engineer – QA **Aug 2026 – Present**

- Own end-to-end QA for every **15-day sprint release**, covering **manual, functional, regression, UI, API, and database testing**, release validation, and **automation code reviews** with engineering and product teams.
- Build **UI automation using Playwright and JavaScript** and architect **API and UI automation frameworks from scratch** for agentic modules, developing reusable test components and workflows for automated validation.
- Architect and build a **mobile automation framework from scratch using Appium for Android and iOS**, implementing reusable cross-platform components for mobile application testing and regression automation.

One 97 Communications Limited (Paytm)
QA Engineer **Dec 2024 – Aug 2026**

- Engineered scalable **UI, API, and mobile automation frameworks** using **Java, Selenium, TestNG, Rest Assured, and Appium** across DWEB, MWEB, Android, and iOS, reducing manual testing effort by **60%** and regression execution time by **45%**.
- Built and maintained **1,000+ automated test cases** with **70% automation coverage** across 20+ critical business workflows; defined and executed test strategies for **15+ customer-facing Bus features**, including Paytm Assured, Bus Sorting, Smart AI Filters, Smart AI Chatbot, and Boarding/Dropping Point Location Services, reducing regression defect leakage by **40%**.
- Owned QA for **2-week Agile sprint releases** across 50+ pipeline runs, validating critical workflows, debugging automation failures using application logs, API payloads, and response analysis, and performing RCA to reduce flaky test failures by **30%** and support production release readiness.
- Architected an **Agentic AI QA workflow** to automate requirement analysis, test scenario design, execution, result validation, and Jira defect management, reducing manual handoffs and improving QA traceability across the testing lifecycle.

Incedo Inc.
Software Engineer **Jul 2023 – Aug 2024**

- Built and maintained Java-based UI and API automation solutions using **Selenium and REST APIs**, supporting automated validation and quality engineering initiatives for customer experience solutions.
- Created and executed **300+ automated test cases** using Java and Selenium, reducing manual testing effort by approximately **80–90%**.
- Optimized the Jenkins reporting framework using **FreeMarker templates**, reducing report generation time from **600ms to 350ms**, while enhancing reports with test author names, defect IDs, and linked Jira URLs to improve test-result visibility, defect traceability, and failure investigation.

Technical Skills

Programming:	Java, JavaScript, Python, SQL
UI & Mobile Automation:	Selenium WebDriver, Appium, TestNG, Playwright, Page Object Model (POM)
API & Database Testing:	Rest Assured, REST APIs, Swagger, Postman, API Automation, Database Testing, SQL
CI/CD & DevOps:	Jenkins, Maven, Git, GitHub, GitLab, Bitbucket, CI/CD Pipelines
Testing:	Functional Testing, Regression Testing, Exploratory Testing, Integration Testing, End-to-End Testing, Mobile Testing, API Testing, Test Strategy, Root Cause Analysis
Tools:	Jira, Charles Proxy, JMeter
Engineering:	Object-Oriented Programming, Data Structures and Algorithms, DBMS, System Design Fundamentals, Test Automation Framework Design, Agile/Scrum

Projects

Agentic QA Workflow — LLM, MCP, Playwright, Jira

- Architected an LLM-driven QA workflow that converts Jira requirements into test scenarios, executes tests across web and mobile surfaces, and manages defect reporting and release traceability.
- Integrated MCP with Jira, Playwright, LambdaTest, and Git to orchestrate context analysis, test execution, QA validation, bug filing, and persistent test artifacts across the QA lifecycle.

Achievements & Certifications

- **LeetCode Knight** and ranked in the **Top 4% globally** among LeetCode users.
- Solved 750+ problems on LeetCode and 250+ problems on GeeksforGeeks.
- Generated 5,500+ views on technical solutions published on LeetCode.
- **AWS Certified Cloud Practitioner**.
